

**Rotary Gauges**

# FLOW INDICATORS, ROTARY & DIAL REPLACEMENT GAUGES

## Flow Indicators

5520-2

5305 Adaptor

Squibb Taylor Flow Indicators are installed in liquid pipelines to give visual indication of flow direction or the absence of flow. Capable of showing flow both directions, the indicator mounts in a standard tee fitting.

Squibb Taylor Flow Indicators 2" MNPT		
Part Number	Pipe Size	Includes
5520-2	2"	5305 Adaptor
5520-2-2-1/2	2-1/2"	5305 Adaptor
5520-3	3"	5305 Adaptor
5305	2"	Flow Indicator Adaptor

Fisher Rotary Gauges can be used on stationary or mobile tanks to visually indicate the amount of LP-Gas or NH3 in the container. They are also used in filling the tank to the proper liquid level. In some applications, hangers are recommended to support the horizontal length of the dip tube. Type J31 is designed for heavy duty use by utilizing a long stem tube extension, minimizing vibration effects.

Fisher Rotary Gauges - 1" MNPT Container Connection		
Part Number NH3 Dial*	Part Number No Dial	Length**
J31A-1	J31X-1	68"
J31A-2	J31X-2	69" - 92"
J31A-3	J31X-3	93" - 108"
J31A-3L	J31X-3L	109" - 140"

\* To order dial only, specify P234  
 \*\* Basic stem tube length; a dip tube is soldered to the stem tube on longer lengths

## Dial Replacements

Part Number	Dial Replacement
5-2 5-40	Dial Replacement Senior Head Dial Replacement Junior Head
SQ130015 SQ130016	Dial Replacement Clamp On - Senior Dial Replacement Clamp On -Junior
SQ2208CV	Dial Replacement Drop In for Squibb - Fits Junior or Senior
SQ5553	Dial 4" for Senior Head Float Gauges
SQ4607	Dial 10" for Master Visble Storage Tank Gauges
