B-9500 Super Flow

The B-9500 Super Flow Meter is designed for applications desiring large tool bars and high capacity NH3 output. The B-9500 features a unique straight-bore flow with virtually no restriction. Other features include a new rotary actuator, single dial setting calibrated in pounds "N" per hour, heat treated, durable, lightweight aluminum body, universal mounting bracket (adaptable to most meter stands), available in 1" FPT or 1-1/4" important inlet.

Note: The B-9500 is calibrated with Continental fittings at 100# tank pressure with 12' 1-1/4 hose, hose line valve and 1-1/4 quick disconnect coupler.

For formulas and setting instructions, please see the operators manual that accompanies each meter.
